

Digicel announces arrival of Digicel Space

DIGICEL VANUATU HAS SAID IT is delighted to announce the arrival of "Digicel Space" : a cloud-based backup service whereby Digicel customers can store and secure all of their data such as photos, files, music, contacts and calendar information. And all this items and information can be restored if a Digicel customer signed up for Digicel Space loses their mobile phone. Digicel is also offering this service free until 31st January 2015.

• Digicel Space application is currently available for all Android smartphones and Windows phone. Subscribers can also backup files from their personal computer

There are 2 ways to sign up for Digicel Space

1. From a mobile device, visit <http://register.digicelspace.com> from a mobile browser and follow the

instructions to login or create a Digicel ID and download the app for your device

2. From a personal computer, visit www.digicelspace.com from an internet browser and follow the instructions to login or create a Digicel ID and download the app for your device

From now until Jan 31, 2015 ALL Digicel Space plans are FREE. Customers will be automatically placed on the 10GB Premium plan, which is FREE until Jan.31, 2105

After that, the Digicel Space service will consist of one entry level plan free of charge and 3 inexpensive plan options for those who need a larger storage allowance

What are the Benefits of the Digicel Space?

• Digicel Space is an application that allows smartphones to:

Access your digital life on multiple devices: The use of more mobile devices and online sites results in a 'splinternet' of your digital life. Your own personal cloud makes it easy to access from mobile smartphones, tablets and computers

Sync and share: Keep your records, memories and contacts secure in the cloud. Integration with apps such as Facebook, and Twitter makes it easy to share your life from your smartphone. You can also sync contacts for other phones

All your important stuff in one place: Pictures, videos, music, documents, contacts, and calendars, available when and where you want. You can access from your smartphone app, website

Restore your data: Automatically secure your data on your personal cloud account, where they are available if you lose a device or

get a new one. It is completely secure & meets international standards for privacy

Across devices: Digicel Space currently supports Android, Windows Phone,

Windows PC, Mac OS and will be rolled out to other devices, such as iOS/ iPhone, BlackBerry smartphone in the upcoming weeks

If you want more storage,

Digicel offers several tiers of storage, ranging from 1 Gigabyte to 30 Gigabytes. You do not have to worry about running out of space anymore, says Digicel.
