HOME FRONT

## APTC holds graduation in Vanuatu

The Australia-Pacific Technical College (APTC) holds its graduation ceremony for the year 2015. The graduation was held at the APTC premises in Port Vila, Vanuatu.

## DIGICEL'S 215 MILLION VATU COMMITMENT TO VANUATU

>>> From Pg 1

The telecommunications company is extremely excited as it takes this step to providing a holistic service to their clients with the incorporation of Fibre to their business. Work on the fibre network is already underway with the first customer connections imminent.

3G+ site expansion plans are in place, with rollout commencing in the coming months.

The Prime Minister of the Republic of Vanuatu, who is also the Minister responsible for ICT and Telecommunication, Joe Natuman welcomes Digicel's investment.

He said, "My

government is committed to ensuring that Vanuatu realises its vision of creating a truly vibrant nation through appropriate use of ICT and telecommunication.

This project supports the government's Universal Access Policy for operators to connect 98% of Vanuatu's population by 1st January 2018 at minimum bandwidth speeds set at 3G+."
