## TRBR STAFF RETREAT

The TRBR team concluded the year 2024 with a vibrant and productive retreat at the scenic Coco Beach in Pango. The event offered a chance to reflect on the year's achievements, celebrate milestones, and engage in strategic planning for the year ahead.

The retreat also provided a relaxed environment to strengthen team connections and foster collaboration. It ended on a high note with a festive Christmas lunch, where the team shared laughter, gratitude, and a sense of accomplishment before parting ways for the holiday season.

## Extension of Sim Card Registration Deadline

The deadline for SIM card registration has been extended by six months beyond the initial date of December 31, 2024. This extension provides additional time for individuals who have not yet registered their SIM cards to comply with the requirements.

To complete the registration process, individuals are required to visit their telecom service provider and present a valid form of identification.

All unregistered users are encouraged to take advantage of this extended period to avoid any disruption to their services.
